TROY STREET DIRECTORY.

Giving the name of each street, and showing what other streets and places run from it or across it with the number at which they intersect.

From the list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Second street No. 168 comes, look at Second street on page 14 and find that Liberty street crosses at 156, and Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

Fire Alarm Telegraph.

CENTRAL OFFICE, ARBA READ STEAMER HOUSE.

Location of signal stations, and rules and regulations to be observed in giving an alarm of fire.

Directions to those holding Signal Station Keys.

If a fire is discovered in your immediate vicinity, go to the nearest Box. Pull the Hook all the way down *once* and let it go; wait a minute, and if you hear no tap in the Box or alarm from the Bells, go to the next nearest Box and pull the Hook as before.

If convenient, wait at the Box and direct the Firemen to the fire.

CAUTIONS.

1. Never open the Box or touch the Hook, except in case of fire *near you.*
2. Never pull the Hook when the small Bell in the Box is tapping.
3. Be sure that your Box is locked before leaving it.
4. Never let the key go out of your possession, except to some known responsible person, to give an alarm.

EVERY POLICEMAN HAS A KEY.

NOTICE.

Complaints concerning the working of the Fire Telegraph, Irregular Striking of the Bells, or Tapping of the Boxes, Broken Wires, etc., should, *in all cases,* be made to the superintendent, James Knibbs, at the Fire Alarm Office, Arba Read Steamer House.

MANNER OF STRIKING ALARMS.

Alarms of Fire will be sounded by striking the Number of the Signal Stations on City Hall, St. Joseph's, St. Mary's, St. Patrick's and St. Peter's Church Bells, and the Engine House Gongs, as for example: For Station No. 3, three consecutive blows, followed by an interval of twelve seconds; Station No. 35, three blows, with an interval of five seconds; then five blows, followed by an interval of twelve seconds; Station No. 172, an interval of five seconds between the one and seven, five seconds between the seven and two, followed by an interval of twelve seconds.

JAMES KNIBBS,

Superintendent Fire Alarm Telegraph.

REQUIREMENTS FOR ADMISSION.

Previously to examination the candidate must present testimonials of good moral character to the Director of the Institute.

For admission to Division D, at the opening of the Winter Session, the candidate must be at least sixteen years of age, and pass satisfactory examinations in Arithmetic, Geography, English Grammar, including Spelling; Algebra, through quadratic equations, and five books of Wentworth's Geometry. For admission to advanced standing, at the opening of either the Winter or Summer Session, the candidate must be correspondingly older, and pass satisfactory examinations in the same, and also in all the previous studies of the Division which he proposes to enter. These examinations are extended and rigorous, including both Principles and Practical Examples.

SESSIONS AND VACATIONS.

The Scholastic year is divided into two Sessions of nineteen weeks each. After the First or Winter Session there is a vacation of one week; and after the Second or Summer Session there is a vacation of thirteen weeks.

The Scholastic year of 1887–8 will commence on Wednesday, September 14th, 1887.

The Annual Register, giving full particulars, may be obtained at WM. H. YOUNG'S Book Store, 8 and 9 First Street, or from

SESSIONS.

The School year is forty weeks or four quarters of ten weeks each. Commencing with the third Wednesday in September, closing with the last Wednesday in June. The only vacation is during the Christmas holidays.

The success which has attended the efforts of the trustees of the seminary to maintain a day school of the first-class in Troy is assured. The patronage of our citizens is generous, and the scholarship and progress of the pupils satisfactory.

The Institution has recently been more completely equipped for instruction in the physical sciences; and classes in primary branches have been arranged, which offer unusual advantages for young children.

It is confidently asserted that pupils residing at their own homes in Troy, have at the Seminary, means of advanced education equalled by only a few of the best boarding schools and colleges for young ladies in the country.

The School thus affords to the citizens of Troy unexcelled facilities for the thorough and economical education of their daughters, while surrounded by home influence and parental care.

An investigation of the merits of the school is respectfully invited.

This Company owns the entire water-power of the Mohawk River at Cohoes, embracing the celebrated Cohoes Falls. Aggregate fall, one hundred and twenty feet, giving nearly ten thousand horse-power. The Company's gate-house and dam are among the finest structures of the kind in the United States.

The canals are so constructed as to give a succession of falls from one canal to another, varying in height from twelve to twenty-five feet. The power is leased by the company, with land for factory building, in perpetuity, at an annual rental of about twenty dollars per horse-power, and considering the quality, is the cheapest in the country. It is an unfailing power; and during the past few years, while most of the water-powers in the country have failed for a time, Cohoes has had an abundant supply, without one minute's stoppage. About one-third of this magnificent power is unappropriated, and appurtenant thereto are some of the finest factory sites to be found anywhere.

Cohoes is situated at the confluence of the Mohawk and Hudson Rivers, about four miles from Troy and ten from Albany, and is eligibly located with reference to New York and other markets, and possesses superior advantages for transportation to market, either by river, canal or railroad, having two canals and two railroads running through it. It is a thriving young city of nearly twenty thousand inhabitants, and contains some of the finest cotton and other factories in the United States.

THE EXCELSIOR GATE & FENCE

is a great improvement on the old way of making Fences; it is made of the best seasoned Oak and will last a great deal longer than Pine, and is much stronger. The rails are oval on top, and every joint on top is covered with a galvanized iron cap, therefore cannot get wet or rot. The pickets are morticed diagonally through the rails, therefore cannot be pulled off. It does away entirely with box pests and molding. It is much simpler, neater, stronger and cheaper than the old style of fence. It costs about half as much to paint it—about five cents per foot for each coat. It is manufactured in Ohio where the oak grows, and with the latest and best improved machinery, or else it could not be produced for the price. It would cost twice as much to manufacture this fence in this locality.

Price 50 cents per foot, delivered at 60 cents, put up and completed.

For further particulars and sample of fence address or call on

Troy Northern Budget

BY C. L. MAC ARTHUR & SON.

TROY, N. Y., SUNDAY, FEB. 27, 1887.

BEGINNING A NEW YEAR.

With this number the BUDGET begins its ninety-seventh year. Almost a century has elapsed since the first issue—a century in which our glorious country has grown from a struggling federation of states to a great and powerful nation, and in its sphere the BUDGET has kept even pace with this march of progress. It has grown up with the country in every sense of the word and in each issue it now spreads before its many thousands of readers not only an epitome of the news of the week, but complete details of latest intelligence down to the hour of going to press. In addition to the news and carefully selected articles of miscellaneous information, the BUDGET has also added interesting contributions from writers of note, and in fact is doing all that is recognized to-day as essential in the make-up of a first class family newspaper.

As an advertising medium it is without a superior and has few equals. It possesses a more widely distributed constituency than any other newspaper in this section and goes into many homes where no other paper finds its way. The appreciation of this fact by our merchants and business men is evidenced by the demand upon our advertising columns by those who know that a mention in the BUDGET is sure to be seen by at least 200,000 readers.

Another feature of the BUDGET that commends it to the reading public is its conservatism and independence. Recognizing the fact that it is the paper of the people it aims to give the news of the day without partisan coloring, and reserves the right, independent of party affiliations, to comment upon important events, local and general, as is deemed wise and proper and for the public interest, neither favoring friend when justice demands criticism, nor attacking those who differ with it in opinion merely because of that difference.

It has always been the object of the present proprietors of the BUDGET to make it a first-class newspaper, and there can be no better proof of success in this undertaking than is afforded by the unmistakable evidence of the BUDGET'S prosperity. It is hardly necessary to add that this policy will be adhered to in the future, and as progress works changes for the better the BUDGET will continue, like good wine, to improve with age. New features will be added as occasion demands, and we shall endeavor to merit a continuance of the patronage that has been so liberally bestowed in the past.

The Budget gives advertisers more circulation for a given amount of money than any other newspaper published in New York State.

The combination of circumstances necessary for successful advertising is found in its best condition in this vicinity in the Budget.

Want Ads., For Sale Ads., To Let Ads., Rooms and Board Ads., inserted at 10 cts. per line. Nothing reckoned at less than 3 lines.

Over 40 miles of white paper used to print each issue. The Budget is a 12 page paper, is the largest and has the largest circulation of any paper in this section.

FREAR'S

Frear's Bazaar, which is situated on Cannon Place and Second Street, Troy, N. Y., occupies forty-six thousand square feet of flooring, and is divided into fifty-three separate and distinct departments. It employs over three hundred people and carries a stock largely in excess of five hundred thousand dollars. Its retail cash business alone is upwards of one million dollars per annum, and is constantly and rapidly increasing.

CASH

Wm. H. Frear is the only Dry Goods Merchant in Troy who invariably pays spot cash for everything. No other dry goods dealer in Troy purchases in such sweeping quantities. Frear gives jobbers and middlemen the go-by, and deals directly with the manufacturers. At no other house in Troy or Albany can such sterling values be obtained in the lines of goods carried by Frear. With every purchase at Frear's Bazaar, perfect satisfaction is guaranteed, or the money cheerfully refunded.
